EZ Dock Plus, LLC

Wilmington, NC 28401

Ms. Simms,

In response to your email.

Our exclusive EZ Dock dealer geographic territory is east of Interstate 95 to the coast from Georgetown County SC to Onslow County NC. We also have a second exclusive area west of Interstate 95 to the South Carolina border at Rockingham NC northward to the Virginia line. Because of our continued product expertise and customer service our territory has grown over the past 11 years of offering EZ Dock Floating Dock products.

We are very familiar with our product and know what to look for, and what to be careful with while disassembling your dock. Our lead foreman has been working with us for ten years. He is one of the most experienced installers in the country.

Quite frankly, knowing which sections or parts to remove and in the proper order will save heartache and money. The second most important thing for your project is patience. A non-EZ Dock contractor simply would not have the patience to complete the project in a timely and cost-effective manner. We know our product and have the proper proprietary tools to bring your dock back to life in Spring Lake.

Please do not hesitate to reach out if we can be of help during the project planning process.

Sincerely,

Jeff Harvell

Owner, EZ Dock Plus, LLC
