

City Manager's Monthly Report (continued)

Dam Restoration Project:

Sanford Dam – the diversion ditch has been regraded and reinstalled. The coffer dam is in place and the dewatering system is back up and operational.

North Lake Dam – the concrete project has been completed

City Manager's Monthly Report (continued)

Pine Lake – reinstalled the control of water and the dewatering system is back in place as well.

Upper Lake – cleaning up around the dam site and will backfill around the structure
